

## EMPLOYEE PHYSICAL EXAMINATIONS

Good health is important to job performance. Employees will present evidence of good health, in the form of a physical examination report, prior to their employment with the school district.

School bus drivers will present evidence of good health every other year in the form of a physical examination report unless otherwise required by law or medical opinion. Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations, when requested to do so, at the expense of the school district.

The cost of the initial examination will be paid by the employee. The form, indicating the employee is able to perform the duties for which the employee was hired must be returned prior to payment of salary. The school district will provide the standard examination form to be completed by the personal physician of the employee. Employees identified as having reasonably anticipated contact with blood or infectious materials will be reviewed on a case-by-case basis and receive the Hepatitis B vaccine or sign a written waiver stating that they will not take the vaccine.

It is the responsibility of the superintendent to write an exposure control plan to eliminate or minimize district occupational exposure to bloodborne pathogens. The plan for designated employees shall include, but not be limited to, scope and application, definitions, exposure control, methods of compliance, Hepatitis B vaccination and post-exposure evaluation and follow-up, communication of hazards to employees, and record keeping.

The requirements stated in the master contract between employees in that certified collective bargaining unit and the board regarding physical examinations of such employees are followed.

*NOTE: All school district employees, on initial hire, must present a form which states that employees are physically able to perform the employee's duties. Bus drivers must present the form at initial employment and every other year thereafter, unless required by law or medical opinion.*
