

HAPPY EARTH DAY

On this Earth Day, let us find ways to reuse, and recycle. Our kitchens are one place to start. Most of us drink milk and have milk jugs that normally we would just toss out to the recycling bins when in all actuality we can use this simple jug for many fun projects. I have attached a link below for you to look at with ten awesome ways to reuse those milk jugs. I challenge you to see if you can come up with more creative ideas 😊

I am also attaching a recipe for Dirt Cups, which would be fun to make with a younger sibling or on your own.

DIRT CUPS

<https://www.myfoodandfamily.com/recipe/054469/easy-dirt-sand-dessert-cups>

If you make these, I would love to see a picture! Feel free to send to my e-mail. (liza.walke-pollitt@wdbqschools.org)
