

# **Teacher Web Page Tutorial for eSchoolView**

*Western Dubuque CSD*

**This tutorial will guide you through the process of creating your teacher web page. There are a few things to keep in mind:**

- All teachers will have a web page meeting the minimum expectations set by the District (this is shared with you in the tutorial). The date to have this completed will be shared with you at a later date. It will probably be around November. Teachers have the opportunity to complete adding expected content to their page on August 22 at the professional development optional day.
  - The page format shared in this tutorial is expected of all teachers. Internal pages developed by teachers can be determined by teachers as long as they are professionally developed and contain appropriate content.
  - This tutorial provides a lesson on adding additional pages about embedding videos. This is optional and not required of teachers.

### News & Support Updates

Posted 5/24/2016 by James Peters

#### News Article Placement Tab Update

There is a checkbox inside the Placements tab to toggle all homepage news components.

You can now place an article on all homepages without having to check multiple checkboxes.

Please email [support@eschoolview.com](mailto:support@eschoolview.com) if you have any questions.

Posted 3/9/2016 by James Peters

#### News Articles and Alumni Export Update

There is a preview link underneath the article title which will enable you to view the article on the public facing site.

The Alumni Export now has address information.

Please email [support@eschoolview.com](mailto:support@eschoolview.com) if you have any questions.

Posted 1/28/2016 by James Peters

#### Moving Content Pages Update

Building Standard Users can now move content pages.

In addition, a minor bug was fixed when trying to link up CMS events with Event Registration events.

Please email [support@eschoolview.com](mailto:support@eschoolview.com) if you have any questions.

### Site Section Management

Navigate to a Content Page you recently visited:

Please select

#### [Drexler Middle/Intermediate School](#)

## Manage Streaming Video Window

Our Video Encoding Service has changed to better serve your uploading experience. All videos are encoded to HTML5 specification, which enables playback on all devices. Your existing videos will still play via our Flash Object. You can upload them here to use our new Video Component.

[Complete List of Supported File Types.](#)

- Directions:  1. Browse for your video file  
 2. Click Upload  
 3. Please be patient, a progress bar will display the upload process  
 4. You will be notified below that the encoding process has started  
 5. Once the encoding process is complete, you may add additional content (*Title, Autoplay, Date Visible/Expires*) and choose your thumbnail image

You can upload a video from your computer. However, the process can take a long time and patience is important. Just follow the onscreen directions when uploading a video.

NOTE: Your video will be sized perfectly within your content window.

A very effective way to include videos on your web page is to embed them. Since YouTube is the most popular video resource site for teachers, let's use an embedded video from it.

Click on **Add Page Component** and then choose **Script Window** from the drop-down menu.
