

PTO Meeting Minutes

May 15, 2023

Color Run: \$34,870+ was raised this year. Will need to make sure to have an adult with each chalk station next year. 90 pounds of chalk was enough for the most part. Discuss letting a family member run with a student like we did before covid.

Dan Wendler would like to look into a therapy dog to have at school. It was discussed to have PTO pay for the dog and training and a staff member would then care for the dog, food, veterinary bills, and anything else. A 4–5-year contract would need to be signed agreeing that the staff member/dog would stay at CES for that time frame and would need to be at school every day. Ed Recker offered to help as well. PTO decided to get more information and discuss it at later date.

Playground equipment was delivered. Brad Gravel will be coming next week to level area. Park Planet will install. Heiar Fencing will then fence in. All estimates are in.

Dan Wendler is going to contact Brad Gravel to get an estimate on how much it would cost to remove all rubber chips and dig down a foot and place rubber chips back in. Lisa Aschtgen is going to clean up rubber chips once school is out. Jody Noonan is going to have Heiar Fencing reach out to Dan Wendler to discuss fence openings for around hard surface playground again.

Cascade Elementary PTO Amazon and Gmail accounts were created.
