

USE OF RECORDING DEVICES ON SCHOOL PROPERTY

District-Generated Recordings

The district believes in the importance of providing a safe and enriching learning environment possible for its students. The district uses digital recording devices on school property including school transportation vehicles to help protect the safety of district students, employees, and community members; and to safeguard district property which is funded using public resources. Additionally, district-generated recordings of students engaging in the district's educational and extracurricular programs can be essential to engage positively with the school community and promote the value of public education.

In order to balance privacy and safety interests, no recording devices will be utilized on district property where individuals maintain a reasonable expectation of privacy. These areas include but are not limited to: the school nurse's office, restrooms, locker rooms, changing areas, lactation spaces and employee break areas.

Recordings of students have the potential to be considered education records. Any recordings will be maintained and accessed in compliance with the requirements of the Family Education Rights and Privacy Act and the district's policy on student records.

Recordings will be digitally maintained and stored for an appropriate amount of time to maintain the safety of the educational environment and to safeguard district property, after which they will be destroyed. The superintendent or superintendent's designee will establish any necessary regulations related to the secure storage, maintenance, viewing and destruction of digital recordings.

Non-District Generated Recordings

The use of non-district owned recording devices on school property and at school events will be regulated. Students, parents, and community members will not be permitted to take recordings of other students or employees during school hours unless the recording is authorized in advance by building administration. Students and employees found to violate this policy will be subject to disciplinary measures consistent with board policy and applicable student and employee handbooks. This policy will not be construed or enforced in a way that infringes on employee activity otherwise protected by law.

It is important to foster a community spirit and sense of unity within the district. However, the district acknowledges that not every student or staff member feels comfortable or safe being recorded. At district-sponsored extracurricular events and activities, the use of non-district owned recording devices by the public may be monitored by administration if a concern is made known to district administration by a student, employee or parent. Any individuals determined to be making recordings considered bothersome to students or staff may be asked to stop or destroy their recording and may be asked to leave the event.
