

WARNING SYSTEM AND EMERGENCY PLANS

The school district will maintain a warning system designed to inform students, employees, and visitors in the facilities of an emergency. This system is maintained on a regular basis under the maintenance plan for school district buildings and sites.

Students are informed of this system according to board policy. Each classroom and office will have a plan for helping those in need of assistance to safety during an emergency. This will include, but not be limited to, students and employees with disabilities.

Licensed employees are responsible for instructing students on the proper techniques to be followed during an emergency. It is the responsibility of the superintendent and principals to develop administrative regulations regarding this policy.
