

Find the area of the following shapes or objects.

Equation: $25 * 15 = 375$

Answer: 375 square centimeters

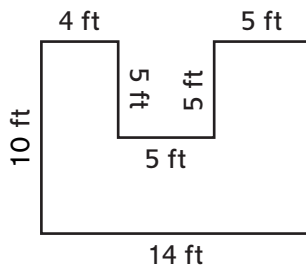

- 2 The science table needs to be covered with plastic for a messy experiment. The table is 25 inches wide and 38 inches long. How many square inches of plastic do we need?

Equation: $25 * 38 = 950$

Answer: 950 square inches

- 3 Study the figure below. It is a plan for the new computer lab at Pond Cove School. The school's principal needs to determine how much carpet will be needed to cover the floor.

- a. Find the area of the room. Show your work below.

Equations: $10 * 14 = 140$; $5 * 5 = 25$; $140 - 25 = 115$

Answer: 115 square feet

- b. Find the perimeter. Show your work below.

Equation: $4 + 10 + 14 + 10 + 5 + 5 + 5 + 5 = 58$

Answer: 58 feet
