

Elbert's Eggs

Lesson 6-5

DATE

TIME

Elbert's Egg Emporium sells eggs in cartons of one-half dozen. Every morning Elbert collects eggs that his hens lay and packs them into the cartons. He packs as many full cartons as he can. If he has any left over, he eats those eggs for breakfast.

One morning Elbert collected 151 eggs.

- 1 How many cartons did he need for the eggs?
Show your work. Be sure to include units with your answer.

Answer: _____

- 2 How many eggs did Elbert eat for breakfast? Show or explain how you know.
Be sure to include units with your answer.

Answer: _____
