

Walking Away with a Million Dollars

Lesson 4-5

NAME

DATE

TIME

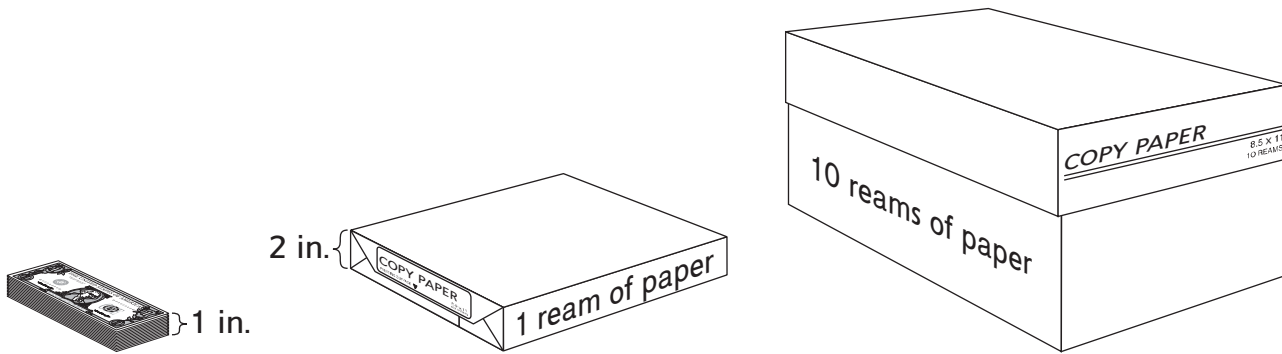

Imagine that you have done a heroic deed and will be given one million dollars as a reward. You get a box from your teacher to carry the money home.

Use what you learned in the Math Message and the following facts to solve the problems below.

A stack of bills 1 inch high has about 250 bills.

A ream of paper is 2 inches high.

The box holds 10 reams of paper.

- 1 Is it possible to fit the reward of one million dollars in \$1 bills in your box? Show or explain how you know your answer makes sense.
