

### Whites

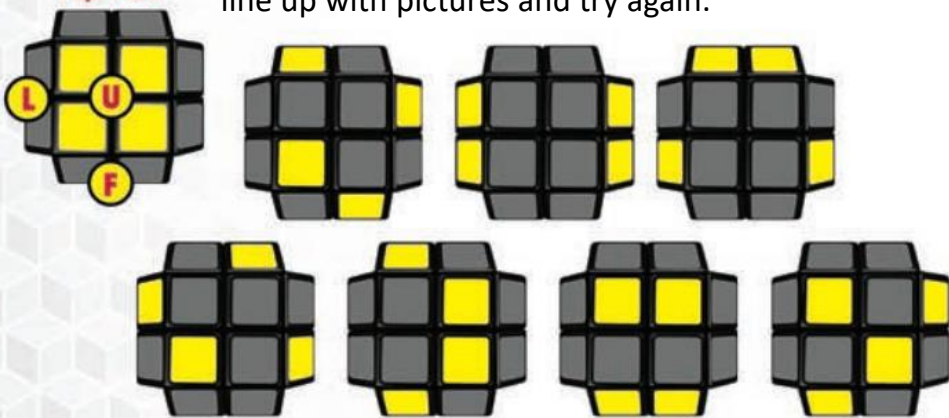

- Color you finished on up-side, front left.
- New color you need on right, either top or bottom.

### Yellow Side

- White side down face.
- Match your cube up to picture below. Complete sequence. If solved, move to next steps. If not, line up with pictures and try again.

Top View

### LAST STEP(s)

- White down, yellow up, solid side in back.
- Complete 1<sup>st</sup> sequence.
- If all (L)s, hold correct L in front, do bottom sequence, then do top sequence with solid side in back.

### ADJACENT CORNERS:

If the 2 corners that need to be aligned are adjacent (side by side), hold your cube to match the picture, and then follow the following sequence.

### DIAGONAL CORNERS:

If the 2 corners that need to be aligned are diagonally across from each other, hold your cube to match the picture, and follow the following sequence.
